US-00-100-709-3

Sequence 3, Application US/08100709

Patent No. 5322687

GENERAL INFORMATION:

APPLICANT: Donovan, William P.

APPLICANT: Tan, Yuping

APPLICANT: Tan, Christine S.

APPLICANT: Gonzalez Jr., Jose M.

TITLE OF INVENTION: BACILLUS THURINGIENSIS CTYETA AND CTYE

TITLE OF INVENTION: TOXIN GENES AND PROTEINS TOXIC TO LEPI

NUMBER OF SEQUENCES: 5

CORRESPONDENCE ADDRESS:

ADDRESSEE: Panitch Schwarze Jacobs & Nadel c/o A.S.

STREET: 1601 Market Street, 36th Floor

CITY: Philadelphia

STATE: Pennsylvania

CONTRY: U.S.A.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    TITATIGIAGACAGCGIGGAATIACICCITAIGGAGGAAIAG 3687

Patent No. 594268

GENERAL INFORMATION:
APPLICANT: Donovan, William P.
APPLICANT: Tan, Yuping
APPLICANT: Tan, Yuping
APPLICANT: Gonzalaz Jr., Ose M.
TITLE OF INVENTION: DACILLUS THURINGIENSIS cryET4 AND cryET5
TITLE OF INVENTION: TOXIN GENES AND PROTEINS TOXIC TO LEPIDOPTERAN INSECTS
NUMBER OF SEQUENCES: 5
CORRESPONDENCE ADDRESS:
ADDRESSEE: Panitch Schwarze Jacobs & Nadel c/o A.S.
ADDRESSEE: Nadel
STREET: 1601 Market Street, 36th Floor
CTTV. Dhiladanki.
                                                                                                                                                                                                                                                                                                                                                                                                                                        3661 TACTICCCAGAAACAGATACAGTATGAGATTGAGATTGAGAAACGAAAGGAAAGTTTATT 3720

ANTI-SENSE: NO
ORIGINAL SOURCE:
ORGANISM: Bacillus thuringiensis
INFORMATION: (904)375-8100
TELEFAX: (904)375-8100
INFORMATION FOR SEQ ID NO: 1:
SEQUENCE CHARACTERISTICS:
LENGTH: 3522 base pairs
TYPE: nucleic acid
STRANDEDNESS: double
TOPOLOCY: linear
                                                                                                                                                                                TOPOLOGY: linear
MOLECULE TYPE: DNA (genomic)

Patent No. 5985267

GENERAL INFORMATION:
APPLICANT: Sick, Jewel M.
APPLICANT: Sick, August J.
TITLE OF INVENTION: No. 5985267el Bacillus thuringiensis Isolates
TITLE OF INVENTION: Active Against Lepidopteran Pests
NUMBER OF SEQUENCES: 27
CORRESPONDENCE ADDRESS:
ADDRESSEE: Saliwanchik & Saliwanchik
STREET: 2421 N.W. 41st Street, Suite A-1
CITY: Gainesville
STRTE: FL
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 COMPUTER READABLE FORM:
